

MANISH KUMAR

Java Full Stack Developer + Gen AI + AWS

Phone: 8851961088 | Email: Brayw433@@gmail.com | Location: Ghaziabad, Uttar Pradesh

Professional Summary

Java Full Stack Developer with hands-on experience in building scalable applications using Java, Spring Boot, Hibernate, RESTful APIs, React.js, AWS, and Docker. Skilled in developing microservices-based architecture, deploying applications on cloud platforms, and improving performance using containerization and CI/CD tools.

Technical Skills

Programming Languages	Java, JavaScript, SQL, HTML5, CSS3
Frameworks & Libraries	Spring Boot, Hibernate, React.js, Bootstrap, Gen AI
Cloud & DevOps	AWS (EC2, S3, IAM - basic), Docker, Jenkins (basic), CI/CD Pipelines
Backend & APIs	RESTful APIs, Microservices Architecture, JPA
Databases	MySQL, PostgreSQL
Tools & Technologies	Git, Maven, Postman
Core Concepts	OOP, MVC Architecture, SDLC, System Design

Internship Experience

Java Full Stack Developer Intern – Appletree Infotech (3 Months)

- Worked on developing and maintaining full stack web applications using Java, Spring Boot, and React.js.
- Assisted in building RESTful APIs and integrating frontend with backend services.
- Collaborated with team members using Git and participated in debugging and testing activities.
- Gained hands-on experience with MySQL database operations and application deployment.

Projects

E-Commerce Web Application | Tech Stack: Java, Hibernate, JSP, MySQL, Docker

- Developed a scalable e-commerce platform with authentication and product management
- Used Docker for containerization of the application
- Integrated Hibernate ORM for optimized database operations

Food Ordering System | Tech Stack: Spring Boot, MySQL, AWS, HTML, CSS

- Built a real-time food ordering system using Spring Boot
- Deployed application on AWS EC2 for cloud hosting
- Developed RESTful APIs and implemented role-based authentication

Instagram Clone | Tech Stack: Spring Boot, React.js, MySQL, Docker

- Developed a social media platform with core features (post, like, comment)

- Designed backend using microservices architecture
- Used Docker containers for service deployment

Education

Bachelor of Technology (B.Tech) – Computer Science
Adhunik College of Engineering, Ghaziabad

Professional Strengths

- Strong problem-solving and analytical skills
- Experience with cloud deployment and containerization
- Knowledge of DevOps practices and CI/CD pipelines
- Effective team collaboration and communication
